Position Title: HVAC Mechanic

Qualifications & Competencies:

This is a position with a physical rating of heavy. Must have a minimum of three (3) years experience as automotive or residential HVAC Refrigeration Mechanic. Must have a U.S. passport. Must be able to pass a physical exam due to the harsh living and working conditions. Must also pass a pre-employment criminal background check and drug screen. This is a one (1) year assignment. You should expect to work 12 hours days, seven days a week.

Salary: \$86,000 income potential with competitive benefits package.

Key Responsibilities:

- Service the A/C and heat pump units in automobiles (or wheeled vehicles).
- Install and repair wheeled vehicle refrigeration systems according to specifications. (Some residential repair.)
- Repair or replace malfunctioned/defective HVAC equipment, electrical components or wiring.
- Reassemble and test heating-cooling equipment following repairs.
- Observes and follows all safety rules and procedures, including wearing required personal safety equipment.

Living and Working Conditions:

Extreme danger, stress, physical hardships and possible field living conditions associated with this position within a desert camp complex. Ability to function during an extended assignment at a foreign, in-country facility exposed to seasonal temperature extremes. Ability to cope with shared cafeteria, bath and sleeping quarters. Must be able to walk, kneel, bend and stoop, and have correctable vision. Employee will be supervised by the Site Manager or senior Human Resources personnel. Only those willing to work and live under these conditions should apply.
