Position Title: Power Generator Technician (PGAP)

Qualifications & Competencies:

This is a position with a physical rating of heavy. Candidates will possess a minimum of four (4) years of hands-on experience with generators or diesel engines or are a graduate of an accredited diesel school. Military experience in these fields is desirable but not required. The Power Generator Technician is responsible for diagnosing, repairing and performing preventative maintenance on a wide variety of diesel powered generators ranging in size from 22Kw to 2,000Kw. This is a one (1) year assignment. You should expect to work 12 hours days, seven days a week. U.S. passport required. Must pass a physical exam due to the harsh living and working conditions. Pre-employment criminal background check and drug screen will be conducted.

Salary: \$86,000 income potential with competitive benefits package.

Key Responsibilities:

- Perform preventive maintenance on diesel powered generators to include: fuel systems, lubrication systems and cooling systems.
- Perform major repair and rebuilds on diesel powered generators to include: cylinder head repair/replacement, combustion cylinder liner replacement, piston, connecting rod and bearing replacement.
- Diagnose and effectively repair shut down and no-start conditions on diesel powered generators.
- Process required paperwork in a timely manner.
- Must possess a thorough working knowledge of diesel engines.
- Basic generator operation fundamentals and a solid electrical background, as well as diagnostic capabilities for power generation equipment.
- Must possess the ability to troubleshoot/diagnose using wiring schematics/diagrams and service manuals
- Must also be self motivated, have good organizational skills and be able to work with little or no supervision. Team players are a must.
- Candidate must be well versed in basic maintenance safety principles, lockout/tag out procedures, and personal protective equipment usage.
- Observes and follows all safety rules and procedures, including wearing required personal safety equipment.
